WAR TO THE KNIFE.

The Peace Negotiations Between
the League and Association.

SHUT OUT BY THE "ONLY" KING KELLY

The Conference Broken Off By the Association Representatives Who Claim That They Were Ill-Treated By the League.

WASHINGTON, Aug. 27.—The association held a meeting about noon yesterday at the Randall house and discussed the gloomy outlook for a settlement. Zack Phelps gave a United Press reporter the entire situation of affairs. He said that upon an invitation extended them from the league people his committee came on to Washington to meet the later in conference and adjust their differences. The meeting was confidential, but the league men had broken faith and given out their side of the story and he felt justified in making a statement in behalf of the association. "We made three propositions to the league men," said he. "First, That the Bierbaum and Stoy declaration should be reversed. The league men admitted that the decisions were wrong and an imposition on the association people. Second, That all contract-jumpers should be disciplined in some way in order that confidence could be established among the baseball public. Third, That the association could maintain its interests in the cities where the two organizations had clubs—the league having the same right with its clubs. The association people made a proposition to the league to place clubs in Chicago and Brooklyn and the league in return to place clubs in Baltimore and St. Louis. "The league," continued Mr. Phelps, "made two propositions to us. One to formulate a plan to make war on star players who are now receiving high salaries for their services, the association to back them in this move and the other to stop the war between the two associations and shake hands. These propositions were then acted upon at the meeting here, but the association at the meeting last night that Kelly had jumped his contract and gone over to the league and the refusal of the league people to guarantee his return to the association, stopped all business at once and what promised to be a settlement of affairs was knocked into a cocked hat by the 'only Kelly.' We could not in justice to ourselves submit such treatment at the hands of the league people, nor could we maintain our present good standing with the people. The association came here to act in good faith, but the action of the league representatives was such that we could hold no further conference with them."

Mr. Phelps added that the outlook for another peace meeting is very gloomy indeed, and the only thing to expect is war throughout the season. At the afternoon session the credentials committee reported in favor of resolving the delegates from the various leagues of the knights of reciprocity who applied for recognition. The convention accepted the report, and in doing so added 100 members to the list of delegates. The committee on resolutions then submitted its report. The resolutions recommended President Harrison's administration, condemned the people's party and the subversive plan, and favored the free coinage of silver. No reference is made to the prohibition issue.

The Knights of Reciprocity.
KANSAS CITY, Mo., Aug. 27.—The Star's Topeka (Kan.) special says: The knights of reciprocity held a short session yesterday morning in the senate chamber, before the league convention assembled, and made arrangements for their recognition by the league. The two organizations will work in harmony, and republicans who are members of both will be given important places in the league councils. The knights will operate in many places of this state where the league has never secured a strong foothold. There were thirty delegates from the knights of reciprocity present. The banner committee of the state is Lyons, where the delegates report 1,600 votes.

A Sudden Summons to New York.
SAN FRANCISCO, Aug. 27.—Much gossip was caused among railroad men, yesterday, by the sudden summons by Col. P. Huntington, of Henry V. Herbert, claim adjuster for the Union Pacific railroad, to New York by first class ticket. It is said that the general opinion that Herbert's mission has connection with the contest of Mrs. Hopkins-Searles will by Timothy Hopkins, the adopted son of the deceased lady.

The Park Place Horror.
NEW YORK, Aug. 27.—The worst in now known about the Park place disaster. Sixty-one bodies have been taken out, and the announcement is made that there are no more in the ruins. At 2 o'clock yesterday afternoon Acting Chief Kelly said the search for the dead in the ruins was completed and that no more bodies remained there. Work was at once stopped and the laborers employed in clearing out the debris were discharged. The terrified list of the missing shows thirty-five persons unaccounted for. The number of unidentified dead taken from the ruins is eighteen. Allowing that eighteen of the missing persons are represented by the known dead, seventeen are still unaccounted for. They are not in the ruins and if not, comes the natural query whether, owing to the fierceness of the flames which raged several hours, some of the bodies were not entirely consumed. The list of the dead identified up to the present time is as follows: Charles Brothman, Gustav Curry, Leonard R. Ellis, Letitia Hild, John Hyatt, Lizzie David, Win. H. Ellis, John Faath, Jennie Flower, John Gibbs, Frank Hach, Annie Hagney, Jacob Hildeneck, Morris A. Herring, John M. Hills, Letitia Hild, John Hyatt, Arthur Kittle, George Liebo, Robert H. Marks, Sarah McMahon, Annie Muller, Peter Miller, Albert E. Middleton, Andrew Peterson, Maggie Quinn, Mary Raddin, Gustava Reich, Was. Schell, Schmalbach, Conrad Schmidt, M. H. Schaddock, John Steinko, Michael Slattery, Gustave Steiner, George Sullivan, Ferdinand W. Tria, Annie Tully, Otto Walker, Henry Williams, Mary Williams, Lizzie Wood and Gustave Zickert.

Coroner Hainley said yesterday afternoon that he would empanel a jury to try to hold an inquest in the case of the victims of the collapsed building. He intends to select architects, builders, printers and at least one chemist as jurors. He intends to hold the inquest next Tuesday. At noon yesterday Mayor Grant appointed a relief committee to look after the sufferers from the disaster. It is composed of the following gentlemen: Edwin T. Hild, John Hyatt, Henry Watson, D. Dickman, Charles Stewart Smith, D. Willis James, John D. Crum, Morris J. Jessup, Chas. O. Wilson, Evan Thomas, Theo. Newcomb, H. H. Hild, Samuel Gumpert, Geo. H. Hepworth, Col. John W. Cookerill, W. L. Davis, W. M. Laffan, Col. Wm. L. Brown, W. Bradford Merrill, Geo. L. Spinney, Henry L. Bowcis and Oswald Ottendorfer. The subscriptions already reach \$1,430. Mrs. D. Jones, owner of the collapsed building, subscribed \$1,000 of this amount.

WHOLESALE MURDER.

Arrest of an Alleged Abortifacient
With a History.

THE UPPER TEN OF DENVER INVOLVED.

Babies, Dead and Alive, Burned in a
Stove to Cover the Shame of the
Women's Patients—A Story Too
Horrible for Belief.

DENVER, Aug. 27.—Madame Astle, who has been posing here as a chiropract for some time past, was yesterday morning arrested charged with being an abortifacient. The principal witness against her is one of the victims, Gertrude Harris, 10 years of age, who came here from Lincoln, Neb. It is alleged that several prominent physicians of Denver are involved, and that their arrest will soon follow.

Mrs. Astle, it seems, has had quite a history before coming to Denver, and about two years ago the New York city prison was extended account of her exploits in London. The article referred to stated that she was at one time proprietress of an abortion house at 44 Cromwell road, London, and that it was at her house that the bodies of the babies by burning them on the part of the Scotland Yard detectives failed to reveal her place of hiding. She was badly wounded during and after the trial, but she managed to get to America undiscovered and finally drifted to Denver.

Too Horrible for Belief.
DENVER, Col., Aug. 27.—Late last night warrants were issued for three men charged with the wholesale murder of babies. The charges are that they were patrons of Madame Astle and that the women were operated on by Madame Astle with the aid of the bodies of the babies by burning them. The police say that one man was highly connected in this city has confessed that the abortion performed on the operation on his wife and that the children they were twins—were taken from her alive and that he stood and saw them disposed of. They were roasted before his eyes, they have been put into the fire while still alive.

The police say they have an affidavit of a man who lived in the same house with Madame Astle, to the effect that he has seen three women burn bodies of infants in her kitchen stove after time. Last night the police arrested a Mrs. Howard, who lives in a cottage on the corner of the street where the bodies of the babies were burned. The police have searched the Astle premises, but will not tell what they have discovered. It is believed that some horrible developments will be made to day when more facts are brought to light.

THE NAVAL REVIEW.
The Off-Postponed Evolutions Successful. In the afternoon the new grange hall was dedicated on which occasion Gens. Gregg and Goblen and Mr. Southworth spoke, the latter advocating silver coinage.

The Devil Will Cass.
BUTTE, Mont., Aug. 27.—In the Davis will case, Judge Hildner, of Boston, a chemist testified that he was in charge of Carter's chemical laboratory and has been a chemist in the same business for many years. He said he had examined the alleged will four times. In his opinion it was written with chromate of potash and log wood ink. He did not think it was genuine. The witness gave a number of authorities to show that chromate of potash was used in the will. His testimony in most respects was exactly opposed to the testimony of experts on the other side.

Col. Ingersoll's Private Secretary.
CHOTON LAKING, N. Y., Aug. 27.—I Newton Baker, private secretary to Col. Robert C. Ingersoll, who was shot on Sunday August 1 by O. D. Anderson, has recovered sufficiently to be taken to the Catskill mountains. When leaving for the mountains he said he felt as well as ever, but that the bullet wound in his arm was somewhat painful.

Great Injury to Irish Grain Crops.
LONDON, Aug. 27.—The information from Ireland shows that the bad weather has caused great injury to the grain crops. The wheat is green and has been suspended, and great distress is apprehended in some districts. Archbishop Walsh has instructed the people of Ireland to pray for fine weather.

The Ballot-Reform Bill of the Last Legislature Condemned as an Attempt to Disfranchise Prohibitionists—The Platform and Resolutions.

HARRISBURG, Pa., Aug. 27.—The prohibition state convention met in this city yesterday and was opened with song and prayer. W. W. Hague, of Warren, was chosen temporary chairman. Committees were appointed, and Chairman Samuel Dieble, of the national prohibition committee, spoke, saying the cause was never so far advanced as now. There are 403 delegates present.

H. T. Ames, of Williamsport, was elected permanent chairman, and delivered an aggressive speech. He condemned the ballot-reform bill of the last legislature as an attempt to disfranchise prohibitionists. The committee on platform was announced with A. C. Briggs, as chairman. State Organizer Gable spoke. A state central committee was elected and after appointing a committee on prohibition literature a recess was taken.

At 10 p. m. Chairman Stevens reported the platform which, besides the usual planks against the manufacture and traffic in intoxicating liquors, denounces the Baker ballot law, condemns the act providing for a convention to amend the state constitution, declares in favor of amending naturalization laws, so that the naturalized citizen shall be allowed to vote within one year from naturalization, arraigns the republicans and democratic parties for failure to execute the civil service law, favors equal taxation on all classes of property, declares that revenues from imports of foreign products should be so levied as to protect home labor against monopolies and demands that the money circulation in the country should be ample for its trading interests and should be increased equally to the growth of business and population. After a brief discussion the platform, with the exception of the naturalization law, was adopted. The platform was supplemented by a resolution opposing the opening of the World's fair on Sunday.

The nomination of candidates was next in order. W. W. Hague, of Warren, was nominated for auditor general by acclamation, and Geo. Drayton, of Media, was nominated for state treasurer. Appropriate resolutions regarding the death of the late Charles S. Wolfe were passed and adopted. A long debate ensued on the proposition looking to the continuance of the People's party newspaper published at Scranton. The whole question was finally postponed until the evening mass meeting. Adjourned.

Will Probably Resume Business.
WILMINGTON, Del., Aug. 27.—Examiner Campbell, in a report to Acting Comptroller Nixon, says the present indications are that the Farley national bank of Montgomery, Ala., which closed its doors a few days ago, will resume business. The depositors and stockholders, he thinks, will not lose a cent.

At the Treasury Department.
The Farley bank is said to have had too much money in hand to make money. It does not owe a cent, has no bad debts excepting the one that closed it, and is in all ways a model bank. Its surplus was about \$110,000. The bank has been in the habit of cashing drafts for the Alabama Terminal Railroad Co., and the last draft of \$10,000 was not paid when presented in New York. Even should the bank lose this large amount it is represented as solvent.

Found Everything Correct.
WASHINGTON, Aug. 27.—The committee consisting of C. L. Mills, W. W. Utz and Amos Webster, appointed to examine the books of certain banks in the office of the comptroller of the currency, made a report yesterday. The committee found everything correct. The value of the redemption of the currency contained \$75,112 50. Referring to the division of issues the report says: "The result of this examination shows that the important and responsible transactions with nearly 4,000 national banks, involving the receipt and issue of many million dollars, have been conducted by the division of issues without the loss of a single penny."

A Lynching That Was Shown Murder.
TULSA, Okla., Aug. 27.—Tuesday morning masked men broke open the windows and taking out J. C. Lewis, colored, hung him to a tree. Lewis had been arrested the day before charged with disorderly conduct, and why he was lynched is not known. There is much indignation here among the law-abiding citizens, and a monster mass meeting was held Tuesday afternoon at which the governor was memorialized and requested to offer reward for the lynchers. The board of aldermen has offered a reward of \$100 for the murderers.
